School is supposed to be cool, right? A place where you can learn and play and grow. But school is not cool when it is unsafe. The Constitution says that we all have the right to safety, and to be protected from harm. This means that learners have the right to be safe at school. It also means that we have the responsibility to not hurt others.

So, how safe is your school? Rate it!
As a club, rate your school’s safety from 0 to 10. For example, you would give 0/10 if it’s not safe at all. 6/10 if it’s fairly safe. 10/10 is a totally cool and safe school.

If your school is not a 10/10, put a ☑ where there is a problem. Talk about and then write down why the problem happens.

Thumbs up for making a safe school
Buddyz, you have worked out why your school did not get 10/10 for safety. Now is the time for action!
• Make sure everyone in your school knows that they have the right to learn in a safe school.
• Make posters to put up around your school.
• Get together with other learners, educators, your principal, and parents and guardians to come up with ideas about how your school can be made safe and happy for all.
• Find out if your school has a safety policy.
• Ask your school to appoint safety officers.
• Make a box where children can write about safety problems. They don’t have to write their names. They can also put in their ideas on how to make your school safer.
• Talk about ways that you, together with others, can make sure that you take responsibility for keeping yourselves and others safe.
• You could work with other schools in your community.

We all have the right to be safe at school!
