When Families Space their Children;

Fathers can have more time, resources and energy to fulfill their roles in the family and community.

Mothers will have time to rest and regain their strength between pregnancies and will be able to care for the family.

Children can grow and develop well to become a part of healthier and stronger families and communities.

Communities can be most productive and prosperous when families are healthy and strong.
**KNOW** - know the facts about childbirth spacing.

**TALK** - talk to your partner about childbirth spacing.

**GO** - go for a Childbirth spacing method.
